

NEW PLUMBING SOLUTIONS

ABN 79 261 981 649

Occupational Health, Safety, Environmental and Quality Policy

New Plumbing Solutions is committed to providing end to end professional Plumbing and maintenance solutions for an ever increasing residential, utility and Government marketplace. With an engaged, competent and trained workforce we will maintain, **develop** and strive to exceed industry and regulatory standards across all levels of Safety, Environment and Quality.

With '**Safety First**' deeply embedded throughout our business, we are devoted to providing efficient and effective platforms for our Management, Workgroup Representatives, Committees and Customers to contribute to the elimination of risk to all our health and safety through effective communication, visibility and consultation.

Environmental leadership and responsibility is demonstrated at every site we **primarily control** whilst always actively looking for innovative and efficient ways to reduce, reuse and recycle waste. Annually review of our key environmental performance, objectives and targets will ensure year on year improvement.

NPS have established an effective Integrated Management System through measurable objectives and targets which reflect of core business strategies. Unprecedented attention to elements such as customer feedback, regular internal procedure and process review, monitoring of suppliers and a specialised auditing program will ensure NPS can consistently meet and exceed customer expectations.

In order to implement this policy every member of the NPS team is dedicated to providing a workplace that is safe, without risk to the health and environmentally responsible for all employees, other persons at work and the general public in all circumstances.

Jarryd Brigham
Managing Director
